\$486,000 Set Aside For Area Road Engineering

In a telephone conversation with Senator John Sherman Cooper's office Friday, The Hazard Herald was informed that in addition to the "Quick-Start" Project designated by the Appalachian Regional Commission last week, that \$486,000.00 has been set aside for preliminary engineering of roads in this area.

The proposed roads and funds allowed are: \$238,000.00 for Isom to Walkertown Road 23.8 miles; \$88,000.00 for Whitesburg By-Pass from U.S. 19 Junction to the West City Limits of Whitesburg, 2.2 miles; \$160,000.00 U. S. 23 Jenkins to Kentucky 15 at Whitesburg, 16 miles.

Also approved for preliminary engineering is 7.1 miles for Paintsville By Pass from Louisa to Greenup.

Designed by the Commission as quick-start projects are the following roads: Combs to Quicksand, 25.7 miles; Whites-

burg to Isom, 6.8 miles; Louisa bypass, 2.9 miles; I-64 to Catlettsburg, 1.8 miles; Ky. 5 to Armo entrance at Ashland, .9 miles. Kentucky's share of the roadbuilding funds from the Appalachian Bill is \$21.7 million. The government grants will account for only 70 per cent of the eventual cost of highway construction under the Appalachian Bill in this state. Kentucky must put up the remaining 30 per cent.

This money was set aside and kept waiting when it looked as if an Appalachian Bill might be passed in 1964. Highway Commissioner Henry Ward says it is still ready, as well as plans for the roads.

Jaycees Reduce District System

At the 30th Annual Convention meeting of the Kentucky Junior Chamber of Commerce at Louisville, May 13-16, 1965, the Ky. Jaycees redistricted, parting from the 12 District system to six regions.

The Hazard local club is now in Region Six, along with Breathitt County, Knott County, Harlan County, Whitesburg, Pikeville, Prestonsburg, Paintsville, Greenup, Grayson, Flatwoods Area, Ashland, and Morehead.

The thirteen Clubs are under the supervision of Harold H. Hudson, National Director, of the Hazard Club. Hudson was presented to the convention by Hazard as a candidate for the office of Internal Vice President of the Kentucky Jaycees. After approximately 3/4 of the first roll call ballot, Hudson saw that he would be unable to obtain a majority vote and moved that the convention accept by acclamation, Bob Man-

chester, his opponent from Paintsville, as Internal Vice President, with his motion being approved by the delegates.

Immediately following the approval, the President of the Morehead Jaycees moved that Hudson be elected by acclamation of the thirteen clubs of Region Six before the convention to the office of National Director of Region Six. This was done by acclamation of the entire convention and followed by a standing ovation for Hudson by the 422 registered delegates and some 150 other Jaycees and guests of the convention.

At the banquet following the election, Hudson received the outstanding district award for District 12 for their work in 1964, under his leadership.

C. L. "Jitter" Fouts, elected in April as District 12 Vice President, is under the Regional setup, State Vice President in charge of Hazard, Breathitt County, Harlan County, Knott County, Whitesburg, Pikeville and Prestonsburg. Both Hudson and Fouts sit on the executive committee of the State organization.

Members of the Hazard delegation were Harold and Ruth Hudson, Don and Jean Fields, Clarence Baker, Elbert Maggard, Remmel Napier, J. A. Murphy, Earl Duff, Bill Moore, E. E. Engle, Jr. and Jitter and Suedell Fouts.

Elbert Fields, 57, Dies In Maryland

A former school teacher in the Perry and Leslie County School System, Elbert C. Fields, 57, died Friday morning at his home in Cecilton, Maryland, after a short illness.

Mr. Fields had been in the teaching profession for the past 33 years. He had been a teacher in Maryland for the last three years. He last taught in the Perry County System at M. C. Napier High School during the 1961-62 school year.

He is a member of the Baptist Church and a member of the Masonic Lodge.

Survivors are his wife, Elizabeth Sue; one son, Morris Preston, of Lexington; and three daughters, Mrs. Barbara McCall of Dayton, Ohio, Alberta and Sarah at home.

His mother, Mrs. Mahala Huff of Busy, three brothers, four sisters and two grandchildren also survive.

Funeral services will be conducted tomorrow morning (Tuesday) at 10 a.m. at the Combs First Baptist Church with Reverends Luther Deaton and Ernest Landrum officiating.

Burial will be in the Riverside Cemetery with Masonic Rites. The Maggard Funeral Home will be in charge of arrangements.

The body will lie in repose at the Maggard Funeral Home Chapel until time for the funeral. Additional services will be held there tonight at 7 p.m.

Mrs. Combs Speaks To Kiwanis About Clean-Up Progress Here

At their Tuesday evening meeting May 11 at Don's Restaurant, Kiwanians heard Mrs. Katie Combs report that, to date, 481 junk autos have been removed from within sight of the county's roadways.

Mrs. Combs, Immediate Past-President of Garden Clubs of 1961 President of Hazard Ki-Kentucky and Chairman of PCDA Clean-Up Committee, is man.

The driving force behind efforts to clean up Perry County, she expressed appreciation to individuals, civic clubs and other organizations which have cooperated with her committee to help make Perry County attractive. Mrs. Combs outlined plans designed to make the Clean-Up Drive a continuous program and revealed plans for organizing interesting projects for school children. This program will be initiated with the beginning of the fall term of school. Claude Isaacs, manager of lo-

U.K.R.A.C. Will Meet Tomorrow At Hyden

Dr. Mary P. Fox, Secretary of the Upper Kentucky River Area Council, announced today that the Council will meet tomorrow morning (Tuesday) at 10 a.m. at the Hyden Presbyterian Church.

One of the major items on the agenda is the presentation of a tentative grant request by the Area Council for an OEO grant to hire an Area Program Director for the four counties. All four counties in the Council need to be well represented at this very important meeting.

Southern Council Meeting Planned

The Kentucky Regional Meeting of the Council of Southern Mountains Inc. is set for Saturday, May 22 at the Pine Mountain Settlement School.

Dr. B. H. Jarmon, president of Pikeville College, will be the principal speaker.

Pine Mountain Settlement School, located on Kentucky 221 off U. S. 421 between Hyden and Harlan, will serve lunch for \$1.00. Limited overnight lodgings are available at the school.

Dr. Jarmon's address is scheduled for 10:30 a.m.

Mary Breckinridge, Nurse And Angel Of Frontier Dies

Mrs. Mary Breckinridge, distinguished founder and guardian angel of Frontier Nursing Service, died Sunday, at her home in nearby Wendover. She was 84.

She had retired from active duty October 17, 1959, becoming on that date director emerita of FNS. She was succeeded by Miss Helen E. Browne, for many years the associate director.

Mrs. Breckinridge probably was the most illustrious Kentucky woman of all time, certainly of her own time. In her were combined the tender healer, the hard-headed acumen of a practical business man, and the rich charm of a wise and cultured personality.

Nurtured Grit, Nerve

With her own funds she underwrote the world-famous Frontier Nursing Service in 1925. Her primary object was to help mountain women through childbirth. General health of the people was her secondary aim.

Mrs. Breckinridge nurtured her grit and nerve into a humanitarian institution that staggers the imagination. She lived to see FNS cover 700 square miles in the rugged back country of Leslie, Clay and Perry Counties, the home of 10,000 prolific families.

Endowment of FNS is well past \$1 million. Total income since 1925 rounds out at about \$6 million. Value of the physical plant is nearly \$500,000. The staff numbers nearly 100.

Mrs. Breckinridge started FNS on a mountainside at Wendover, five miles from Hyden. Wendover continued as her home and headquarters throughout the years of expansion that included:

A modern hospital at Hyden with 27 beds, 12 bassinets, and 2 incubators; the Frontier Graduate School of Midwifery, perhaps the most notable of its kind in the world; the districts of Hyden and Wendover, and outposts, each serving about 70 square miles under supervision of a registered nurse-midwife, at Beech Fork, Brutus, Red Bird, Confluence, Flat Creek, and Wendover.

An outpost at Bowlingtown was erased by Buckhorn Dam and replaced with a new center on Wolf Creek.

She was the driving force that created the lowest loss of mothers in the nation. In the first 12,262 births attended by FNS, only 11 mothers died. And two of those were not connected with the pregnancies.

Metropolitan Life Insurance Co. analyzed the first 10,000 births attended by FNS, in the period 1925 to 1955. It found a maternal death rate of 9.1 in her later years as FNS di-

rector she worked mostly abed, white women in the United States, in the same period, the death rate was 34 per 10,000 live births.

Moreover, in the same period that FNS was delivering 12,262 babies, it registered 53,096 patients of all ages with all ailments; inoculated 213,006 adults and children, and treated 20,611 for 165,157 patient-days at the Hyden hospital.

Started On Horseback

To achieve these herculean tasks, Mrs. Breckinridge and her dedicated staff of nurse-midwives started on horseback and graduated to jeeps; they forded rivers, traveled on creek beds, and endured primitive hardships in a mountain society isolated from the amenities of civilization.

To finance them, Mrs. Breckinridge enlisted the interest of philanthropists, not only in Kentucky, but in wealthy circles of the North and East.

Mrs. Breckinridge never once solicited the gift of a dollar. She simply told the story of FNS, a story that tugged at the heart before it opened the purse. The humanity of her story yielded more than \$5 million to the dream of her life that Mrs. Breckinridge lived to see come true.

The drama of her story drew hundreds of volunteers to her service, just for the sheer exhilaration of being a part of the great adventure. Through the years, FNS couriers on horseback and in jeep have been debutantes from the North and East, many following earlier examples set by their socialite mothers.

Many Came To See

Professional aims — and achievements — drew the unstinted cooperation of medical societies and nursing associations of the United States and England, in general, and Hazard, Lexington, Louisville and Cincinnati in particular. The unique combination she wrought from medicine and sociology drew doctors, nurses and social workers from all over the world to study her techniques.

Thus, FNS grew and flourished through the years as the ever-lengthening shadow of this frail little wisp of a woman with sand in her craw and steel in her nerves.

She was bent and stooped, but indomitable; she carried a board to sleep on in Pullman berths, but was able to electrify wealthy audiences upon arrival; a maternal death rate of 9.1 in her later years as FNS di-

Marcus Combs

Marcus Combs Files For Jailer

Marcus Combs, a Hazard businessman, has announced his candidacy for the office of Jailer subject to the Primary Election, May 25.

Mr. Combs attended Hazard City Schools, old Hazard Baptist Institute and Millersburg Military Institute. After serving eight years with the U. S. Navy before and during World War II, he studied to be a dental technician at the Louisville Prosthetic Lab. In 1947, he joined his brother, Doug, who operates the Combs Dental Lab in Hazard and they have been in business together ever since.

Mr. Combs is a member of the First Baptist Church. He is married to the former Wanda Tyler, daughter of Sebe Tyler, of Harburbury, and they have three children, William Marcus, Jr., 8, Cheryl Ann, 6, and Margaret Susan, 2.

If elected, Mr. Combs promises the citizens of Perry County, to carry out the duties of the Jailer, which will include keeping the new court house and jail clean.

Sewage In Your Water Source

What's the latest news about Hazard's polluted source of drinking water? Haven't heard much in the past few months, have you?

Nope, seems like the subject of human filth in the river where drinking water comes from is just too plain unpleasant to think about, or talk about.

I hear that most of it comes from Lothair, a community of about 2,000 people who have no place but the river to dump their sewage. Of course it's not their fault. Gotta put it somewhere.

Haven't been long since Hazard did the very same thing.

Last year Hazard's City Commission talked some about annexing Lothair and hooking it on to its own new sewage treatment plant. But as it turned out, that was all a smoke screen to appease a State Health Department who wanted to clean up the river. That talk has all died down now.

Protecting Our Gains

When your house is already cluttered, you probably don't pay much attention to one more dirty shirt or piece of wadded paper added to the pile. But after you have worked hard cleaning it up, chances are you become extra vigilant in guarding the results of your hard work.

This is a natural response, the same response that is now motivating county clean-up enthusiasts who want to protect the hard-won cleanliness that has come to parts of Perry County in the past month or two.

To do this, it is necessary to exercise some control over those thoughtless people, particularly motorists, commonly known as litterbugs, who may shortly undo all the good that has been done. The State Department of Natural Resources has come up with a unique way of going about it.

It has had printed thousands of post cards, pre-addressed to the Division of Clean-up and Beautification within the Natural Resources department, on which violators of littering laws can be reported to proper authorities.

The idea is for those motorists who want to keep the highways and roadsides clean to carry a supply of these cards in their own cars, and when they see somebody throw a beer can out the window, they can write their license number down, describe the offense, and then mail the information to Frankfort.

The Division of Clean-up and Beautification can then determine the owner of the car and send him a notice to the effect that he was seen littering the highways.

Since most highway litter is put there by normally well-meaning people who just don't stop to think that it is the small bits of trash they throw out from time to time that makes up the bulk of our litter problem, such a reminder should serve as a very effective means of making the offender aware of what he is doing.

The cards are being distributed by local garden and civic clubs. Every person who has been angered by seeing someone throw trash out a car window should arm himself with sev-

eral cards, and use them. This is one way that each one of us can become actively involved in the campaign to free our landscape of trash.

While we're on the subject, it seems appropriate to congratulate again the civic organizations in the county and the town who, aided by public agencies, are having such encouraging success in getting rid of the old junk cars that use to plague our roadsides.

It seems equally appropriate to call attention to the several ugly piles of junk cars right here in Hazard that need the same kind of treatment much of the county is getting. Though the problem is widespread, it is particularly acute on Maple Street.

Shucks, while we're at it, let's just go on down to the river bank and stick our heads under that nice sand.

They say that's the popular thing to do in Hazard and Lothair these days.

The Joke Is Over

Most of us have had several laughs out of the idea of the ZIP code since it was first announced a couple of years ago.

The public in general was sardonically amused to find itself saddled with yet another number, to add to Social Security numbers, draft card numbers, telephone numbers, and a lingering spirit of plain old-fashioned individual cussedness caused many of us to simply ignore the post office's addition to our "numbers" burden.

But now that we have had our fun, isn't it time to go ahead and concede that we live in the space age today, that the earth is getting crowded with people who cramp all our public facilities, requiring more sophisticated methods of operating such things as our postal system?

Of course it is. If the ZIP code will help us get our mail faster, why not take it seriously, and use it consistently? In our own best interests, we should.

Hazard's ZIP code number is 41701.

This Community Needs Museum And Arts and Craft Center

Why is there no outlet in Hazard for hand-made products made by local mountain craftsmen?

Why is there no museum containing old relics that tell Perry County's history?

Why, in fact, is there not located in Hazard some kind of facility that could serve both these purposes: a museum to attract visitors, with an ante-room where local crafts could be sold to those visitors?

It would seem that the community is really missing the boat by paying no attention to the possibilities of such an attraction. If established and operated in the proper way, such a facility could become a "must" place to visit for any traveler passing within a few hours drive of Hazard.

Its value would be two-fold: many important items of historic interest—old tools, weapons, household furniture and implements—would be preserved and shared with future generations; and the literally scores of talented mountain people who make things with their hands would have a place to sell the things they make.

In various forms, this idea is discussed from time to time by local people interested in history, crafts and the simple business angle of the tourist trade. But so far no one has seen fit to take some positive action to bring such an idea into being.

The Perry County Development Association is an incorporated organization, set up for just such activities. Would it not be a worthwhile project for one of PCDA's sub-committees concerned with county development to explore ways in which a combination museum and craft center could be established?

The President's Yes-Man Policy

One of the basic political premises on which President Johnson has operated throughout his career in public office, and particularly since he has been President, has been to let the consensus of the people guide him in formulating national policy.

This procedure has not only served him well in his political career; it has been a very democratic way of doing things. When the nation's leaders are careful to remain responsible to the voice and the attitude of the mass of people, then they are functioning as they are constitutionally obliged to.

But lately, the President has developed a very disturbing tendency to listen to only some of the many voices in the crowd: those that agree with his own.

As the last election indicated, and as Congress' speedy approval of everything President Johnson wants continues to confirm, the majority of public opinion in America coincides with that of the President. He and his policies continue to have the support and backing of most of the people and most of Congress.

But it appears now that this great "mandate of the people" has swelled President Johnson's head, to the extent that he is beginning to consider anyone who doesn't agree with him, particularly about Viet Nam, to be somehow unAmerican.

This is clearly the implication when he, and men like Secretary of State Dean Rusk and Senator Everett Dirksen, react as they did when some Senators stood their ground against the President's Viet Nam policy.

They implied that when Senators Morse of Oregon and Gruening of Alaska criticized the President for his Viet Nam policy, the Senators were giving aid and comfort to the Communists by providing grist for their propaganda mill.

No doubt the Communists did make some propaganda out of the fact that some promi-

nent Senators did not want to bomb North Viet Nam.

But that is simply the price we have to pay for being a nation where the dissenter is allowed his say. That is one of the liabilities of being a free country.

The Communists may get some temporary propaganda use out of what the Senators said. But they can never overcome the more important fact that, in the United States, they had the right to say it.

Far from being unAmerican, the criticisms made by Senators Morse and Gruening—regardless of how popular they were—were the most American things imaginable. By standing up and criticizing the President of the United States, they provided a living demonstration of American democracy in action.

The only unAmerican aspect to the whole business is the disgraceful efforts to silence voices of opposition to national policy.

Aside from being a threat to the basic American freedom of protest, (the freedom to write editorials such as this one), the Johnson administration is simply unwise when it refuses to listen to opposite points of view.

Many executives, in business and the military as well as in politics, like to surround themselves with "yes men," with men who are no more than broken records, capable of saying only, "Yes Mr. President, Yes Mr. President, Yes Mr. President."

This sustains the ego of vain men, but it hardly helps to arrive at objective truth.

And in this day and time, America's national policy must be based on truth as objective as it can possibly be arrived at.

Our democratic process is set up to allow discussion and debate of all points of view in arriving at this objective truth and it is a bad sign indeed to see the Johnson administration discourage this kind of dialogue.

Too Lazy To Try

The Lycoming Shoe Company, of Williamsport, Pa., plans to build two \$300,000 manufacturing plants at Paintsville and West Liberty which would provide jobs for up to 600 persons in the Eastern Kentucky area.

That was the lead to a news story in the papers recently. There have been similar stories in the state press over the past year, stories about small industry coming to Middlesboro, Irvine, Williamsburg, Corbin.

But you look in vain if you seek a story telling about outside industry coming to Hazard.

Why is this? There are several reasons. Some think it is the explosive labor climate of Perry County. Certainly this is an important factor. Others say there is a lack of adequate building sites, while still others say our local educational and cultural benefits and facilities are too limited to attract industrialists from "better" places to live.

To a degree, all of these factors are responsible. But perhaps more crucial than any one of them is the apparent lack of initiative by local leaders to attract the kind of small industry that could succeed here.

Who do you blame? For a starter, let's try the Hazard Chamber of Commerce. That organization, made up of Hazard's business people, is ideally the instrument that should be most active in community development. But, sadly, it has in the past few years become virtually inactive, so limited have its ambitions been.

The Chamber recently elected new officers, as it does every year. We would like to suggest to the new leadership then, that it do something about the lazy-bones image the Chamber has built for itself lately. We would like to suggest that it assume the responsibility for local industrial development, and then take some positive steps to meet that responsibility.

The Ultimate Weapon?

Finally, at last, the ultimate weapon in the war on poverty has been suggested, even provided: a large supply of elderberry bushes for planting on strip-mined hillsides.

The bushes, generously provided by a philanthropic California jelly-maker, are expected to make hillsides scarred yellow by the stripping process bloom again in verdant green.

This idea is so original, we hope the kind jelly man gets a job with the Appalachian Regional Commission in Washington.

Or perhaps his proper place would be in the Office of Economic Opportunity, which, incidentally, is reportedly now considering an anti-poverty project designed to discover some way to cope with all the darn elderberry bushes already here.

New Regional Health Center Brings Dr. Turner Home

By Gurney Norman

If the job of Regional Health Director was new to Dr. Dillard Turner when he came to Hazard a few weeks ago, the place where he would perform it and the people he would serve certainly were not.

The doctor-turned-administrator grew up "in the head of Cutshin" in Leslie County, attended Pine Mountain Settlement School, graduated from the Berea Academy and then Berea College in preparation for the University of Louisville medical school.

That background, plus service as Perry County's health officer from 1936 to 1941, made Dr. Turner's appointment to the directorship of the Regional Health Office on the fourth floor of the Daniel-Eblen building here a "homecoming" in the truest sense of the term.

Dr. Turner's new responsibilities cover a wide area. The Regional Health Office over which he presides is the second one to be established in Kentucky of an eventual total of six, and Kentucky divided only six times makes each division a vast territory indeed.

Counties included in this medical region are Pike, Letcher, Leslie, Clay, Jackson, Madison, Estill, Powell, Wolfe, Owsley, Lee, Breathitt, Magoffin, Johnson, Martin, Floyd, Knott, with Perry County near the center.

What is the function of a Regional Health Office and its director, anyway?

In answering that question, Dr. Turner compared his job to that of a booster station in a radio network, picking up signals from the State Health Department in Frankfort and beaming them anew in Eastern Kentucky.

The Regional Health Office, in other words, serves as a

Dr. Turner's Return

The job of Director of the Regional Health Office is not the first such office Dr. Turner has held in Hazard. From 1936 to 1941 he was Perry County's health officer, except for an absence of one year to earn his Master's Degree in public health work. He left a private practice in London, Kentucky to accept his new job. Here he works at his desk in the Regional Health Office on the fourth floor of the Daniel-Eblen building in Hazard.

lison between Frankfort and the various county health offices, helping them to identify the major health needs of the people in the hollows, then working to solve them.

The concerns of the Health Department have changed a good deal in the past couple of decades, Dr. Turner says. Back in the 1930's, for example, the big challenge was to immunize against then-common diseases such as typhoid and diphtheria.

Those and other diseases still require attention, Dr. Turner adds, but continuing immunization keeps them under control, so that the health centers and their personnel can turn their attention to other, less-tangible needs.

Dr. Turner says the Regional Health Office is today helping the county health offices expand programs in three particular areas: family planning, mental hygiene and mental retardation.

Until fairly recently, Dr. Turner said, a "vacuum" existed in the public health services' efforts in these areas. The Health Department would like to see that vacuum filled by greater efforts to minister to these particular needs.

Family planning, or birth control, is a relatively new field of endeavor for the Health Department, Dr. Turner said, but as public opinion continues to realize the need for it, especially in heavily populated areas of poor economy such as Eastern Kentucky, the Department will increase its activities in this field.

Dr. Turner said that it will likely take about five years before the results of the birth control measures show up in Eastern Kentucky's birth rate figures.

Persons with mental problems are also receiving increasing attention from the State Health Department. Many mentally ill persons are able to lead fairly normal lives if they simply take certain medicines, and these are often dispensed

locally, by prescription.

In addition, specialists in this particular field visit the county health offices twice a month for consultations, another example of the Department's attempt to carry medical care to the people.

State health officials have worked in the region for years, Dr. Turner says, but until the establishment of the Regional Office, they had no central office.

Now, with a mutual headquarters in Hazard, close coordination is possible between people like State Sanitation Consultant Steve Sandlin, Public Health Nurse Oma Smith and Health Educator Alta Banks, all of whom now have offices in Hazard.

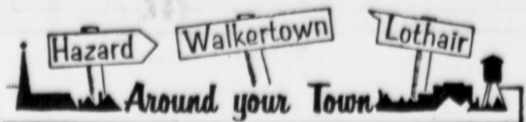

This region is also served by Virginia Dodd of Irvine, a records consultant for the county health offices, and plumbing and food and drug specialists from the other established Regional Health Center in Somerset.

Dr. Turner sees a close connection between this region's economy and its peculiar health problems. "Anytime we can upgrade our economic status, we upgrade our health status," he says.

Health problems due to dietary deficiencies in the local population are not as bad as they were in the 1930's, he says, thanks to the various forms of outside aid available to the people.

But Dr. Turner does recognize a "forgotten" group of people whose health is worse than most, those families of the unemployed who receive no "check," have no medical cards and do not qualify for any kind of aid.

Perhaps with a Regional Health Office helping the hard-working county health offices bring the full resources of the State Health Department a little closer to the people, this unfortunate group of mountaineers will now be less "forgotten."

Barber - Perry Vows Exchanged Saturday

The marriage of Miss Carole Clay Barber, daughter of Mr. and Mrs. Arley Reginald Barber, Sr., of Hazard, and Larry Kerns Perry, son of Mr. and Mrs. Edwin Monroe Perry of Elizabethtown, Kentucky, was solemnized at 2:30 Saturday, in the Mother of Good Counsel Catholic Church, Hazard.

Father Edward Overberg, cake encircled with a chain of OFM, officiated at the double greenery and white carnations, flanked by silver candelabra with burning white tapers and silver punch bowls.

The bride, given in marriage by her father, wore a gown of ivory peau-de-soie fashioned with an Alencon lace empire bodice. Re-embroidered scallops wreathed the portrait neckline and above elbow sleeves. The A-line skirt, embellished with a deep applique lace border, accented with chiffon rose motifs, was designed with a lace-edged square detachable train caught to the waist with a crescent of lace.

Her imported tiered illusion veil was held by a peau-de-soie pillbox with pearl edged lace crest, and she carried a cascade of gardenias and stephanotis.

The matron of honor, Mrs. Evan Evans Settle III, wore a turquoise peau-paca floor length gown, styled with a belled skirt, matching lace bodice, with jewel neckline, elbow sleeves, and velvet encircled waist with back bow and streamers. She wore a matching open crown pillbox with a pout veil and carried a modified hagarth bouquet of yellow carnations.

The bridesmaids, Misses Sally Leedy, Rhonda Cox, Sally Ward Maggard, and Sarah Gilbert, wore identical dresses and carried identical bouquets as the matron of honor.

Mr. Jerry Perry served as his brother's best man. Ushers included Charles Farris and James Brunfield, both of Lexington, Arley R. Barber, Jr., brother of the bride, of Hazard, and Jerry Childress of Cincinnati, Ohio.

A program of wedding music was presented by Mrs. Paul Tayloe, organist, and Mr. W. P. Morton, Jr., soloist, who rendered three selections—"O Perfect Love," "One Alone," and "Till There Was You." Mrs. Tayloe played the piano throughout the reception also.

The altar was banked on each side with emerald foliage interspersed with wrought iron candelabra with burning white tapers. The prayer bench was flanked with baskets of white gladiolus. The church windows were decorated with emerald and burning white tapers.

Following the ceremony, guests were entertained at a reception in the Fellowship Hall of the First Presbyterian Church of Hazard.

In the receiving line were the bride's mother, wearing a rose-beige lace sheath with matching accessories and a corsage of cymbidium orchids; the bridegroom's parents, Mr. and Mrs. Perry; the bride's father; the bride's couple and her attendants.

Presiding at the guest book was Mrs. Arley R. Barber, Jr., sister-in-law of the bride.

The bride's table was covered with a white damask cloth centered with a tiered wedding

JESSIE HORN

For

COUNTY COURT CLERK

TO THE CITIZENS OF PERRY COUNTY:

There is a definite trend to more efficient local government by more highly educated people. The affairs of Perry County are becoming more complex, thus demanding more highly educated officers. Your Clerk's Office is the business office of the county and must be operated in a business like way by trained personnel.

My educational background includes a B. S. degree in Accounting at the University of Kentucky. I have more than twenty years experience in city and county government.

The record on which I run is my own.

I am asking for your support in the May 25th Republican Primary.

JESSIE HORN

YANCY AMIS

Yancy Amis

FOR SHERIFF

Democratic Primary, May 25, 1965

To The Voters of Perry County

As pastor of the Johnson Baptist Church, of Buckhorn, Kentucky, I wish to make the following statements in behalf of Yancy Amis who is now a candidate for Sheriff of Perry County:

Our records show that he has been a member of this Church since 1934, and Deacon since 1941. He is also Chairman of the Board of Directors.

In performing the duties that are imposed upon a man holding these positions, I have always found Mr. Amis to be very sincere and Christian like in the fulfillment of the obligations that are involved.

As to his civic duties in our community, he and his family are always ready and willing to aid any person, or family in need of free transportation to and from doctors offices, clinics, or a hospital. At the time of death or funerals, you will again find YANCY AMIS and his family there to give whatever aid they can to those in grief. Their cars are always available to help transport people to and from services each Sunday.

As to his official records while serving the public as Deputy Sheriff and A.B.C. Agent in Perry County. They speak for themselves

I feel assured, should he be nominated and elected to this office, you will find him to be sober, honest dependable, and a Christian Gentleman while carrying out the many duties and obligations that you expect of your Sheriff.

Very respectfully yours,

BEECHIE JOHNSON, Pastor

EUGENE JOHNSON

FOR

COUNTY JUDGE

Democrat Primary, May 25, 1965

TO THE VOTERS OF PERRY COUNTY:

I would like to introduce myself as one of your candidates for the office of Perry County Judge on the Democratic Ticket subject to the Primary Election May 25.

I am 36 years old, married and have one daughter, 10, and one son, 8. My wife is Lela June Johnson and we reside on Combs Road.

I am qualified by experience, education and traveling throughout our county. I own my own business. The Eugene Johnson Candy Company, which is very successful.

During recent months, Leslie County has received a \$26,000 federal grant for work in their county, and Letcher County was given a similar grant. If elected, I will work toward such a grant for Perry County.

I feel that roads are one of the biggest problems here in Perry County. If elected, I will work for better roads and for any other project which will help the people in our county.

I am qualified, capable and sober and I sincerely ask for your support in behalf of my candidacy.

-EUGENE JOHNSON

To The Voters of Perry County:

I am in the race on the Democratic Ticket for State Representative from Perry County.

As I am working six days a week I won't have a chance to see all of you before the election, so I am stating some of the important things I am for in this article.

I am in favor of changing the election laws to only have an election every even year for all offices are filled for two or more even years. The state can use the money it spends on the unnecessary election for so many things more important.

I am in favor of a sterilization law to sterilize all persons who have a venereal disease to avoid the possibility of them being the father or mother of a deformed child. Also sterilize all girls that are known to be cohabiting with men to avoid the possibility of them being the mother of an illegitimate child which the state is now spending so much money to take care of and raise.

Let's make Kentucky a leader in breeding us back to be strong, healthy, intelligent people here in the United States like they were in the days of long ago.

If you are interested in the things I have mentioned, send me to Frankfort and I will go in fighting for these things and continue the fight until I get results.

Your support will be appreciated by me and others too I hope.

ELI BRASHEAR.

For
CORONER

Democrat Primary

TO THE VOTERS OF PERRY COUNTY:

In announcing my candidacy for Coroner of Perry County, I would like to let you, the voters, know a little about my background.

I am the son of Aileen "Engle" Combs and the late George W. Combs. I am the grandson of James "White Jim" Combs and William Engle, Sr.

I attended Hazard High School, Georgetown College and Kentucky School of Embalming. Since graduation from Embalming School, I have been employed with Engle Funeral Home. While working at Engle Funeral Home, I have become a licensed Funeral Director and Embalmer.

I married Lois Dean Combs, the daughter of Mr. and Mrs. Paul Combs and the granddaughter of Sam Combs and the late Matt Crawford, both of Typo.

I am very active in Civic Affairs. I belong to the Hazard Junior Chamber of Commerce and the Hazard Lions Club. As a member of these clubs, I have participated in many city and county projects. Just to mention a few: Chairman of the Heart Fund for two years, Christmas Basket Program, Clean-Up Program and Glasses for the Needy.

Most important of all, REMEMBER—I am the only licensed Funeral Director and Embalmer running for Coroner. This in itself qualifies me more for the office of Perry County Coroner.

JAILER

Democrat Primary, May 25, 1965

To the Voters of Perry County:

For sometime I have been in the process of visiting and talking to you, the voters of Perry County, on behalf of my candidacy for Jailer in the Democrat Primary, May 25.

I am proud to be a descendant of one of the first families to settle here. My father was the late Dr. Dishmon Combs, who practiced dentistry in Hazard for many years. My mother, Callie Williams Combs, was raised at Yerkes, lives in Hazard as do my sister, Mrs. Pauline Beams, and brother, Douglas Combs. My great-grandfathers were "Uncle Ira" Combs, famed Old Regular Baptist Preacher and Clint Combs, both of Jeff.

I attended Hazard City Schools, old Hazard Baptist Institute and Millerburg Military Institute. After serving eight years with the U. S. Navy before and during World War II, I studied to be dental technician at the Louisville Prosthetic Lab. In 1947 I joined my brother Doug, who operated the Combs Dental Lab in Hazard and we have been in business together ever since.

I am a member of the First Baptist Church and have been for 29 years. My wife is the former Wanda Tyler, daughter of Sebe Tyler, of Hardburly. We have three children, William Marcus, Jr., 8, Cheryl Ann, 6, and Margaret Susan, 2.

I promise you, the citizens of Perry County, if elected Jailer, I will endeavor to carry out the duties of the Jailer, which will include keeping our new court house and jail clean.

I sincerely ask for your vote.

Ky. Federation of Women's Clubs Will Hold Convention In Louisville

The Kentucky Federation of Women's Clubs will meet for their 70th Annual Convention at the Brown Hotel, Louisville, May 15-28. The convention theme, "Tomorrow is Here All Over the World" was chosen by state President, Mrs. W. Ed Hamilton of Bardstown. A welcome to Louisville will be given by Mayor William O. Cowger.

Speakers for the convention will include: Mr. Joe Gray, Frankfort, State Department of Child Welfare; Mrs. R. Wesley Naye, Houston, Texas TV personality; The Honorable William B. McComber, Assistant Administrator for Near East, and South Asia, AID, Dept. of State, Washington, D. C.; Dr. Arnold DeWald Albright, Executive Vice President, University of Kentucky and Mrs. Thomas Houde, Hankakee, Illinois, Junior Director of the General Federation of Women's Clubs. Governor Edward T. Breathitt will present A Commendation.

Outstanding personalities include Miss Rosemary Clooney, Kentucky and Hollywood, recently appointed 1965 Kentucky Home Coming Ambassador by Governor Breathitt, who will be present at the Wednesday evening banquet. The speaker for the evening, Dr. Marion Mill Premering, of New York and Lamberene, Africa, is a well known philanthropist and philosopher, author and lecturer, who has just returned from working with Dr. Albert Schweitzer in Africa. It is indeed a privilege to have these prominent people appear on the program.

At the luncheon on Wednesday, a "Stone Age to The Space Age Fashion Show" will be presented. Mrs. Henry D. Stratton, Pikeville will narrate the Fashion Sewing Contest. In the afternoon there will be tours to Farmington, the 14-room federal style house under Historic Homes Foundation, and open house at the KFWC State Headquarters. A Fine Arts TEA will be held Thursday afternoon.

Other events of special importance will be the presentation of many awards, election

of a first vice-president, third vice-president, recording secretary and treasurer, appointment of a chairman and co-chairmen for the KFWC State-Wide project "A Girl's Rehabilitation Center." There will be regular meetings for club presidents, governors, chairmen and junior clubwomen held in order to transact Federation business. They are of utmost importance, and it is hoped that everyone concerned in these matters will be in attendance.

BERNICE M. COMBS

FOR

SHERIFF

Republican Primary, May 25, 1965

FRIENDS AND NEIGHBORS OF PERRY COUNTY:

I am your present Sheriff, Charles E. Combs. As you know I have served you for the past three years and four months. My term expires December 31, 1965.

You are going to select someone to serve you the next four years. We have tried to give you honest and courteous service, in the past and will continue to do so as long as we remain in this office.

Our many friends throughout Perry County have encouraged us to enter this coming election, which will be May 25th. Under the law, I cannot succeed myself. So in order to give you the same courteous service, my friends and I decided that my wife should run for this high office; so here we are.

The election is very near and we have seen a lot of people throughout the county and hope to see all of you before the election, but in the event we do not we want you to know we appreciate your past, present and future support. It would be useless for us to promise a lot of big flowery tales; Our record speaks for itself.

We have worked 24 hours a day, around the clock, to save our county from destruction and to try and keep a peaceful county in which to live. My wife, Bernice Combs, has been just as instrumental as I have. She knows the duties of the Sheriff as well as I do. We have one of the most modern Sheriff's department in the State of Kentucky. I have personally purchased marked cars, two-way radio equipment, uniforms and other equipment which Perry County has never had before. We recently purchased a four-wheel drive Scout so that we would be able to give better service to the rural areas. We now have six vehicles with two-way radio equipment, which enables us to serve you better.

The major crime rate in Perry County is now the lowest in the history of the county.

We only have three regular deputies which are paid salaries. We can reach practically any place in Perry County within thirty minutes or less. We have never failed to answer a necessary call regardless of what hour it may be. We will continue this same service when Bernice is elected. When you go to the polls on May 25th and nominate her for your Sheriff you can go home and rest assured that she will be elected in November. The Democrats all over Perry County are as interested in our campaign as the Republicans.

Now, my friends, stop and think if you want this continued modern efficient and courteous service.

Go to the polls on May 25th and cast your vote for Bernice M. Combs for sheriff.

THANK YOU.

—For—

State Representative

Democrat Primary, May 25

To The Voters of Hazard and Perry County:

I, Roland "Chink" Combs, wish to inform the people of Perry County that I am the son of Tilden and Ellen Holliday Combs of Hardburly, Kentucky; that I am a brother of Dr. Lyndon F. (Little Doc) Combs and Tolbert Combs, Commonwealth Attorney. I have lived in Perry County all my life and worked for the Hardy-Burlingham Mining Company and its successors at Hardburly, Kentucky.

I attended Lee's Junior College at Jackson, Kentucky, and the University of Kentucky at Lexington, Kentucky. I served approximately four years in World War II with the 82nd Airborne Division from the time it was activated at Fort Bragg, North Carolina, until the time it was deactivated and we were discharged from the Service.

As a member of the 82nd Airborne Division I participated in seven major battles and have seven combat battle stars and a Presidential Unit Citation for the combats in which I was engaged.

If nominated and elected as your State Representative I shall support all legislation pertaining to:

- (1) the betterment of all Health and Welfare programs, additional aid to the mentally retarded and our aged senior citizens,
- (2) the improvement of our schools and school systems, with better pay for the teachers and additional facilities for our schools,
- (3) the improvement and expansion of our road network system in Eastern Kentucky,
- (4) the improvement of all Veterans' programs, especially those pertaining to our disabled Veterans,
- (5) the improvement and betterment of our Soil Conservation Program, the clearing up of our streams and preventing the pollution of our waterways, also the conservation of all our natural resources.

Having lived in Perry County all my life and having invested in Perry County all that I own, I believe I understand our problems better than any of my opponents and that I am better qualified to find a remedy for these problems. I will always be available to discuss legislative matters with any person or persons desiring to do so.

Your vote and influence will be greatly appreciated and I will always be grateful to you for any assistance you may give me in this election.

VOTE FOR BARBARA NOBLE COMBS

Daughter of "Cy Noble & Granddaughter of
"Red Bob Napier"

Republican Candidate For

COUNTY COURT CLERK

I do not want a deed for this office; I desire only
to be your custodian and humble servant.
Your vote and influence will be greatly appreciated

FAMILY BACKGROUND

1. This is my first race for political office in Perry County.
2. I was born at Krypton, Ky., and educated in Perry County, having gone to school at Big Creek and Buckhorn.
3. Cy Noble was my father who at one time ran for this very important office.
4. May Napier of Krypton, Ky., was my mother, daughter of "Lucinda Begley & Red Bob Napier."
5. Roy Edward Combs of Busy, Ky., is my husband. He is the grandson of "Rod McIntosh."
6. I am 36 years of age and have a daughter going to M. C. Napier High School, and help rear my husband's two children. I understand and appreciate the problems of our young people and the many difficult tasks they face in life.
7. I have 18 years experience at office work, having performed the tasks of bookkeeping, filing and typing.
8. Elbert Strong, was my uncle and served many of you as your County Attorney. C. A. Noble, Sr., also served the people of this County for many years, and his sons continue in the legal profession. One of which also served as your County Attorney.
9. My father worked many years for Sam Campbell in his magistrate's office, and I am sure you remember Dad or Cy when he worked for Sam Campbell. If elected to this very important office my platform is simple.
1. Everyone regardless of politics is welcome to visit and make the Clerk's office a part of his government and he may change his registration at legal times without any advice or prompting since this is his privilege.
2. To the Attorneys or Lawyers of this area, as well as the people I promise to keep their deed books and mortgage books permanently indexed monthly to make their abstracting safe and easier.
3. I promise to get new index books for the leins books and re-index the books so that if anyone is running the name of Combs or any name they will be able to look under the C page or pages without jumping all over the book to find and abstract their title or research and thereby do away with unnecessary pitfalls.
4. Your records will be respected and protected during my tenure of office.
5. I do not desire a lifetime deed to this office and will only run one term, and will step aside and give some one else an opportunity to serve you people, since I merely want to be your custodian and humble servant.
6. I promise to keep your Clerk's Office open all day on each and every Saturday of the year since I realize that this is the only day of the week that many of our people have a chance to come to town to transact their business.
7. I plan to make myself or my chief deputy available at all times to serve the people.
8. I promise to not absent myself from the office for more than two weeks of the year.
9. I promise to personally observe and keep a firm control over all the tabulation sheets of all election in this County.
10. I promise to run an efficient office, and to buy equipment only with the approval of the Fiscal Court.
11. My staff will be experienced in serving the public and persons whom all of you know and respect.

I ask for your help and support in this Republican Primary Election, and I would love to be your Republican choice for the November Election since I feel that I can be a winner in November if nominated. I plan to visit each and every one of you before the primary election and if I should fail to see you it will be because you were gone when I made my visit.

Any consideration you can show me will be appreciated to the bottom of my heart.
—BARBARA NOBLE COMBS.

Soil Conservation Service Observes Birthday

The Soil Conservation Service, U. S. Department of Agriculture, observes its 30th birthday on the 27th of this month. This year over 85,000 Kentucky farmers are enrolled as soil conservation district cooperators and receive help from the Soil Conservation Service to control soil erosion and improve their soil and water resources, it was stated today by Homer A. Taff, Soil Conservation Service State Conservationist, Lexington, Kentucky.

In addition to working directly with farmers on their land, through their soil conservation districts, the Soil Conservation Service today works closely with State and local government agencies, watershed associations and others interested in conservation. Urban residents receive consultative help.

In Kentucky 2 small watershed projects have been completed. In addition 19 watershed projects are under construction and 6 are in the planning stage. "A total of 147 applications have been received," Taff said.

"We have developed many new and effective techniques in carrying out soil and water conservation since 1935," Taff said. "Much of our land is still being eroded but we know how to handle the problem. How fast we move is up to the landowners and operators."

Former Hazard Resident Dies In VA Hospital

Gene Walker, age 39, son of the late Richard and Belle Walker, passed away at the Veterans Hospital in Chicago, Illinois May 8. Interment was in Chicago May 10.

Mr. Walker is a former resident of Hazard, Kentucky and Veteran of World War II.

He is survived by two sisters, Mrs. Charles Wilson of Clay County, Mrs. Daugh Curry, Hima, Kentucky. Two brothers, Albert of North Dakota, and Charles of Chicago, Illinois.

Cooper Speaks At Lees College Commencement May 16

The principal speaker for the Commencement Program at Lees Junior College, Jackson, on May 16, was Senator John Sherman Cooper. Senator Cooper has shown sincere interest in the educational needs of eastern Kentucky, as well as for the general welfare of the area. His comments, therefore, to the thirty-seven sophomores who are completing their work at Lees this spring was of genuine significance.

With its history dating back to 1883, when it began as the Jackson Academy, Lees Junior

College numbers more than 3000 persons among its alumni. President Troy R. Eslinger, in announcing this special feature of this year's Commencement activities, says that Lees College is preparing to launch a significant development and expansion program during the early months of 1966, and that the rising interest among alumni of the institution offers much encouragement to its future.

WHAT MANNER OF MAN IS THIS FELLOW WOMBLES

THE NEWS HAS TRAVELED OVER PERRY COUNTY LIKE WILDFIRE—HENRY WOMBLES IS RUNNING FOR COUNTY JUDGE!!! The election is drawing near . . . The people are beginning to talk . . . And so the question being asked by every man, woman and child in PERRY COUNTY is . . . WHAT MANNER OF MAN IS THIS FELLOW WOMBLES????

WHAT MANNER OF MAN IS THIS . . . That dares run for the office of COUNTY JUDGE against a man that has been on the county payroll almost continually for the past FORTY YEARS.

WHAT MANNER OF MAN IS THIS . . . That dares go into the far corners of our county and tell our people that ROADS all over our rural sections CAN BE BUILT and then shows them a copy of the APPALACHIAN BILL to prove it can be done.

WHAT MANNER OF MAN IS THIS . . . That dares not deny that he has promised to build a bridge over a creek that blocks twenty seven families from their homes for hours at a time when the creek gets up. And one that has been needed for over forty years.

WHAT MANNER OF MAN IS THIS . . . That dares say to the people that no group or groups will be able to bring enough pressure to bear to stop the progress of our road building program in all parts of our county both DEMOCRAT AND REPUBLICAN.

WHAT MANNER OF MAN IS THIS . . . That dares say that LEGITIMATE LABOR ORGANIZATIONS can be an asset to our community instead of hindrance to industry.

WHAT MANNER OF MAN IS THIS . . . That dares say the MINERS WELFARE FUND was wrong in taking away the Miners HOSPITAL CARDS and then selling the HOSPITAL that rightly belonged to the miners themselves, and taking the proceeds from the sale and adding it to a treasury of over ONE HUNDRED AND TWENTY MILLION DOLLARS and leaving their members without any hospital benefits whatever.

WHAT MANNER OF MAN IS THIS . . . That dares to come out openly against the LAW-LESSNESS & DYNAMITING that threatens the peace and welfare of our people. And against the LONG HAIRS that would destroy our freedom and our way of life. And against the people who would slip false propaganda under your doors while you sleep and slip away under the cover of darkness so you won't know who they are that put it there.

WHAT MANNER OF MAN IS THIS . . . That dares say that every citizen of PERRY COUNTY should be free to labor where, when and for whom he pleases. That he should not have to live under the fear that he may be met by RENEGADES in the early hours before day-light, jerked out of his truck and knocked down and stomped in the road and his lunch kicked over in the creek. All this because he took the only method he knew to make a living for his family. WORKING IN A TRUCK MINE.

WHAT MANNER OF MAN IS THIS . . . That dares say that the people of PERRY County should be forever grateful to the SMALL TRUCK MINE OPERATOR . . . SMALL TRUCK MINER . . . COAL TRUCKERS for without these people PERRY COUNTY would have been in a really depressed condition. That dares say that if a bridge is not able to carry a coal truck, lets not stop the truck, LETS FIX THE BRIDGE.

WHAT MANNER OF MAN IS THIS . . . That dares tell the people of Perry County that if they fail to vote and let the UNDERSIRABLES get in control of our county we will have a REIGN OF TERROR sweep across our county the likes of which has never been seen before

WHAT MANNER OF MAN IS THIS . . . That dares tell the REPUBLICANS of PERRY COUNTY that if they want to carry their party to victory in the final election this fall it is necessary to nominate a man with courage to face the issues and strength to carry the fight to the people and one that can WIN IN NOVEMBER.

WHAT MANNER OF MAN IS THIS . . . That dares tell the people that if he should be defeated he will not BOLT THE TICKET but will support the nominee of their choice.

YES THE PEOPLE ARE BEGINNING TO TALK AND THE QUESTION IS

WHAT MANNER OF MAN IS THIS FELLOW WOMBLES
